Summary

Background

Santaquin City (“City”) is experiencing increased demand on its parks, trails and recreation facilities from the residential growth that is rapidly occurring in the City. In order to maintain service levels, the City is updating its current Parks, Recreation, Trails and Open Space Impact Fees Master Plan to reflect current growth conditions, service levels and growth-related facility needs.

The City has determined that there is one service area citywide and that there is no excess capacity in any of the City’s parks, recreation, trails and open space facilities. Only residential development is considered to create demand for parks, recreation, trails and open space facilities and therefore only residential growth has been considered in the determination of impact fees.

Projections for population growth in the City are as follows:

TABLE 1: PROJECTED POPULATION GROWTH, 2023-2030

Year	Population
2023	17,253
2030	21,218

Identify the Existing and Proposed Levels of Service and Excess Capacity

Utah Code 11-36a-302(1)(a)(i)(ii)(iii)

The IFFP considers only *system* facilities in the calculation of impact fees. For the City, this has been determined to mean neighborhood and community parks and trail systems. Pocket parks are considered *project* improvements and have not been included in the calculation of impact fees.

Existing service levels are based on the current (2023) levels of service in the City for parks and trails. Existing and proposed service levels are shown in the table below. Proposed service levels are to *at least* maintain existing service levels.

TABLE 2: EXISTING AND PROPOSED SERVICE LEVELS

	Existing	Proposed	Excess Capacity
Parks - impact fee eligible land acres per 1,000 population	2.03	2.03	0
Parks - open space acres per 1000 population	6.96	6.96	0
Parks - impact fee eligible improvement acres per 1,000 population	8.97	8.97	0
Trails - asphalt linear feet (lf) per capita	1.50	1.50	0
Trails - concrete linear feet (lf) per capita	0.25	0.25	0

The City intends to at least maintain current service levels for parks and trails. Any increased service levels will be funded through means other than impact fees.

Identify Demands Placed Upon Existing Public Facilities by New Development Activity at the Proposed Level of Service

Utah Code 11-36a-302(1)(a)(iv)

The table below shows the declining service levels that would occur in the City, due to population growth, if no new facilities are added. Each of these declining service levels is discussed in more detail in the body of this report.

TABLE 3: IMPACTS TO SERVICE LEVELS DUE TO NEW DEVELOPMENT IF NO IMPROVEMENTS ARE MADE

	2023	2030 LOS
Parks – land acres per 1000 population	2.03	1.65
Parks - open space per 1000 population	6.96	5.66
Parks - improvement acres per 1000 population	8.97	7.30
Trails – asphalt lf per capita	1.50	1.22
Trails – concrete lf per capita	0.25	0.20

Identify How the Growth Demands Will Be Met

Utah Code 11-36a-302(1)(a)(v)

In order to maintain the existing level of service for parks and trails facilities, the City will need to spend over \$7 million by 2030.

TABLE 4: NEW FACILITIES NEEDED TO MEET THE DEMANDS OF NEW GROWTH, 2023-2030

Facilities	Amount
Parks	\$6,179,746
Trails - asphalt and concrete	\$851,377
TOTAL	\$7,031,123

Consideration of Revenue Sources to Finance Impacts on System Improvements

Utah Code 11-36a-302(2)

This Impact Fee Facilities Plan includes a thorough discussion of all potential revenues sources for parks, recreation, trails and open space improvements. These revenue sources include grants, bonds, interfund loans, transfers from the General Fund, impact fees and anticipated or accepted dedications of system improvements.

Utah Code Legal Requirements

Utah law requires that communities prepare an Impact Fee Facilities Plan (IFFP) before preparing an Impact Fee Analysis (IFA) and enacting an impact fee. Utah law also requires that communities give notice of their intent to prepare and adopt an IFFP. This IFFP follows all legal requirements as outlined below. The City has retained Zions Public Finance, Inc. (ZPFI) to prepare this Impact Fee Facilities Plan in accordance with legal requirements.

Notice of Intent to Prepare Impact Fee Facilities Plan

A local political subdivision must provide written notice of its intent to prepare an IFFP before preparing the Plan (Utah Code §11-36a-501). This notice must be posted on the Utah Public Notice website. The City has complied with this noticing requirement for the IFFP by posting notice.

Preparation of Impact Fee Facilities Plan

Utah Code requires that each local political subdivision, before imposing an impact fee, prepare an impact fee facilities plan. (Utah Code 11-36a-301).

Section 11-36a-302(a) of the Utah Code outlines the requirements of an impact fee facilities plan which is required to identify the following:

- (i) identify the existing level of service;
- (ii) establish a proposed level of service;
- (iii) identify any excess capacity to accommodate future growth at the proposed level of service;
- (iv) identify demands placed upon existing facilities by new development activity at the proposed level of service; and
- (v) identify the means by which the political subdivision or private entity will meet those growth demands.

Further, the proposed level of service may:

- (i) exceed the existing level of service if, independent of the use of impact fees, the political subdivision or private entity provides, implements, and maintains the means to increase the existing level of service for existing demand within six years of the date on which new growth is charged for the proposed level of service; or
- (ii) establish a new public facility if, independent of the use of impact fees, the political subdivision or private entity provides, implements, and maintains the means to increase the existing level of service for existing demand within six years of the date on which new growth is charged for the proposed level of service.

In preparing an impact fee facilities plan, each local political subdivision shall generally consider all revenue sources to finance the impacts on system improvements, including:

- (a) grants;
- (b) bonds;
- (c) interfund loans;
- (d) transfers from the General Fund;
- (e) impact fees; and

- (f) anticipated or accepted dedications of system improvements.

Certification of Impact Fee Facilities Plan

Utah Code states that an impact fee facilities plan shall include a written certification from the person or entity that prepares the impact fee facilities plan. This certification is included at the conclusion of this analysis.

Existing Service Levels, Proposed Service Levels and Excess Capacity

Utah Code 11-36a-302(1)(a)(i)(ii)(iii)

Growth in Demand

Impacts on parks and trails facilities will come from residential development only. Residential growth is projected as follows:

Parks

City parks are shown in the table below. The property for some of these parks was donated to the City, or acquired with grant funds, therefore the property acquisition for some of these parks has not been included in the impact fee eligible LOS.

Park improvements have been identified for each eligible park as shown in the table below. While the land for many of the parks shown in Table 6 above cannot be included because the land was donated or granted, in most cases the City has paid for the improvements at those parks. Therefore, those improvements can be included in the impact-fee eligible LOS. A summary of improvements is shown in Table 7.

Proposed Service Levels

The City has determined that its parks and trails are currently at capacity and that it desires to at least maintain existing service levels in the future, as new development occurs.

The City has recently completed a Parks and Trails Master Plan which identifies the need for future projects as follows:

TABLE 9: FUTURE PLANNED PARKS AND TRAILS

The City has also identified the need to acquire park land as it becomes available in various locations throughout the City.

Identify Excess Capacity

The City has determined that there is currently no excess capacity in its parks or trails.

Identify Demands Placed on Existing Public Facilities by New Development Activity at Proposed Level of Service and How Those Demands Will Be Met

Utah Code 11-36a-302(1)(a)(iv)(v)

Demand Placed on Facilities by New Development Activity

Park Land

Existing park land (impact fee eligible) service levels would decline, due to new development activity, from the existing service level of 2.03 impact-fee eligible acres (land) per 1,000 persons to 1.65 per 1,000 persons if no improvements are made.

Consideration of All Revenue Sources

Utah Code 11-36a-302(2)

Grants

The City anticipates that future trail land will be acquired through easements and grants, as it has in the past, and has therefore not included any cost for trail land in the calculation of impact fees. The City is unaware of any potential grant sources for future parks and trails facilities. However, should it be the recipient of any such grants, it will then look at the potential to reduce impact fees.

While the City has been donated some park property in the past, it has no future indication of any gifts that will be received by the City. Further, the City has conservatively excluded any donated properties, or properties acquired through grant funds, from establishing its level of service used in the calculation of impact fees.

Bonds

The City has no outstanding bonds for parks and trails facilities. While the City could issue bonds in the future in order to fund parks or trail facilities, no bonds are currently being contemplated and therefore no costs associated with bond issuance have been included in the calculation of impact fees.

Transfer from General Fund

To the extent that the City is able to generate net revenues in its General Fund, it may choose to transfer all or a portion of the net revenues to the City’s capital fund for parks and trails. It is most likely that, if net revenues should be generated, they will be used to increase service levels and not to offset the capital costs associated with new development.

Impact Fees

Because of the growth anticipated to occur in the City, impact fees are a viable means of allowing new development to pay for the impacts that it places on the existing system. This IFFP is developed in accordance with legal guidelines so that an Impact Fee Analysis for Parks, Recreation, and Trails may be prepared and the City may charge impact fees for Parks, Recreation, and Trails.

Anticipated or Accepted Dedications of System Improvements

Any item that a developer funds must be included in the IFFP if a credit against impact fees is to be issued and must be agreed upon with the City before construction of the improvements.

Certification

Zions Bank Public Finance certifies that the attached impact fee facilities plan:

1. Includes only the costs of public facilities that are:
 - a. allowed under the Impact Fees Act; and
 - b. actually incurred; or
 - c. projected to be incurred or encumbered within six years after the day on which each impact fee is paid;

2. Does not include:
 - a. costs of operation and maintenance of public facilities; or
 - b. costs for qualifying public facilities that will raise the level of service for the facilities, through impact fees, above the level of service that is supported by existing residents;

3. Complies in each and every relevant respect with the Impact Fees Act.
